APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use and manner of use of a portion of the waters of Lake Tahoe heretofore granted under Permit 61784 is issued subject to the terms and conditions imposed in said Permit 61784 and with the understanding that no other rights at the source shall be affected by the change proposed herein. A totalizing meter must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to a beneficial use. This permit is subject to the final allocation of the State of Nevada under the California-Nevada Interstate Compact Commission. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0013 cubic feet per second, but not to exceed 0.56 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

October 21, 1998

Proof of completion of work shall be filed before:

November 21, 1998

Application of water to beneficial use shall be filed on or before:

October 21, 2000

Proof of the application of water to beneficial use shall be filed on or before:

November 21, 2000

Map in support of proof of beneficial use shall be filed on or before:

ATTACHMENT

Response to Item 7, Proposed Place of Use.

All that certain lot, piece or parcel of land situated in the County of Douglas, State of Nevada, described as follows:

PARCEL NO. 1

The southerly 25 feet of Lot 10, all of Lot 11, and the northerly 25 feet of Lot 12, as shown on the map of CAVE ROCK COVE, LTD. TRACT, filed in the office of the County Recorder of Douglas County, Nevada, on September 26, 1936, as Document No. 3331.

PARCEL NO. 2

Those strips of land lying between the Northwesterly end line of each Lot, or portion of Lot, described in Parcel No. 1, described above, and the Low Water Line of Lake Tahoe, and lying between the side lines of each of said Lots, or portion of Lots, extended to the Low Water Line of Lake Tahoe.

Response to Item 15, Remarks.

The proposed place of use described in Item 7 is a single family residential lot. Proposed point of diversion is an existing water intake line in Lake Tahoe which delivers water through an existing water distribution system to residential lots as authorized by Permit No. 18317 (Certificate Record No. 5503) and will also deliver water to the property described in Item 7, for Quasi-Municipal purposes. Proposed changes of point of diversion, place of use and manner of use will not interfere with use of water heretofore appropriated under Permit No. 18317 (Certificate Record No. 5503).
